

2-30MHz SECTIONAL WHIP

SKU#ANT-HF-SW

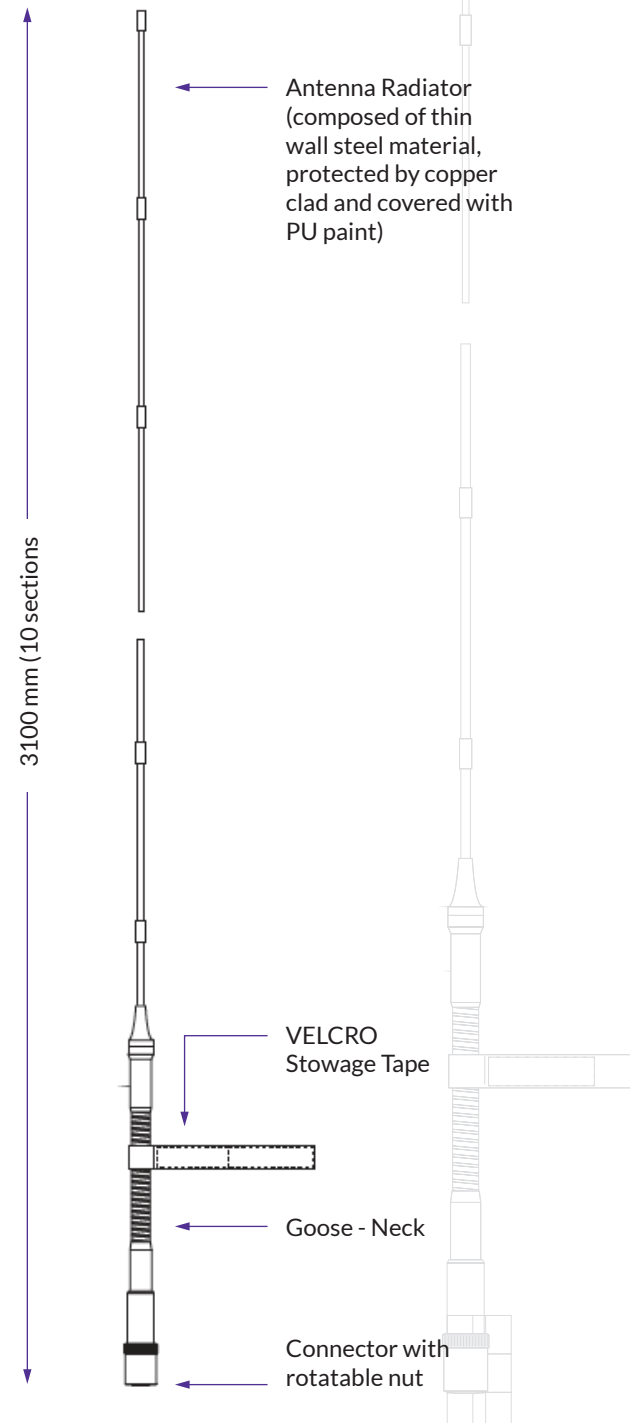

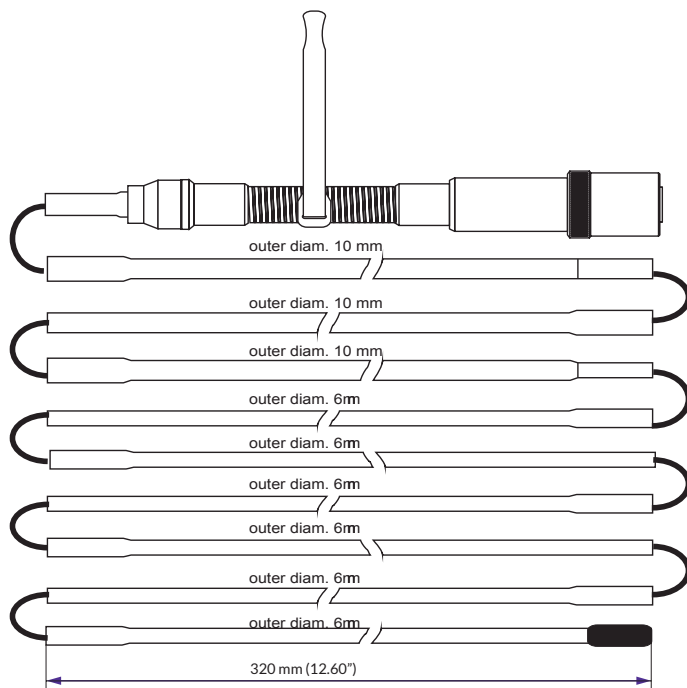

OVERVIEW

The ANT-HF-SW is intended for use with portable and manpack radios within HF frequency band.

The antenna is composed of 10 thin wall stainless steel sections in Military gree and connected with elastic rope.

Elastic rope tension enables good electrical contact between sections and allows rapid deployment of the antenna. The velcro strip at the base provides option for packing when not in use. The "goose-neck" enables vertical positioning of the antenna irrespective of radio set orientation.

Frequency range	2 - 30 MHz
Maximum power	50 W
Polarization	VER.
Connector	Customized BNC/TNC with outer thread M24 x 1.25
Height	3100 mm
Weight	0.350 kg
Temperature range	- 40....+70 °C
