

# RUCKSACK CARRY SYSTEMS

SATCOM

SKU# RSK-CHE3-GRN

AB2272

## COLOUR & CONFIGURATIONS

Our rucksacks are typically available in a solid color, such as Olive Drab, and are designed for optimal functionality. The standard configuration includes a rear radio pouch with Velcro flaps, allowing easy access for antenna extension and handset use while on the move. Adjacent to this is a pouch for an additional antenna and a spare battery pouch positioned below. The belt is equipped with provisions for two army-style water bottles and two ammunition magazine pouches, designed to fit AK47-style magazines. D-rings on the front provide convenient attachment points for additional equipment. Custom configurations can be tailored to meet specific end-user requirements and accommodate various equipment needs

## CAMOUFLAGE PATTERNS:

Please note that, in order to cover setup costs and meet the minimum material order requirements of canvas manufacturers, the initial order quantity must exceed 200 units.
