

SINGLE BATTERY CHARGER

SATCOM

SKU#CH-LC1

OVERVIEW

The CH-LC1 battery charger is designed to charge all the batteries of the Sat-Com range of products from any AC voltage source ranging from 90 to 264 Vac 50/60 Hz.

The internal charge controller is set to optimise and minimise recharge times of the 13 Ahr and 26 Ahr Li-Ion batteries for the radio equipment.

The charge level is indicated while the battery charge in a percentage until it indicates BATTERY FULL.

The user can easily determine charge levels of any battery by merely installing the battery onto a charger and read the result in few seconds.

In the event a battery is not in good condition, the charger will indicate "BATTERY FAULTY" Once a battery is fully charged, the user can remove the battery and charge another battery.

Input Voltage range	90 - 264 Vac (5A)
Charge Current	1 - 3.5A (12.8Vdc)
Charge Protocol	MPPT
Charge Time	<3hrs ~13Ahr, <6hrs ~ 26Ahr
Dimensions	15 x 11 x 7.5 cm
Weight	1.2 kg
