

SINGLE-EAR TACTICAL MILITARY HEADSET

SATCOM

SKU#HST-HDP-SSPK

Store Code: AB2151

Connector: U329/164-229

OVERVIEW

This tactical headset offers exceptional passive noise cancellation and is designed for both head-wear and helmet-wear. Built to withstand harsh military combat conditions, it is ideal for use in demanding combat situations.

The HST-HDP-SSPK headset features a compact housing that integrates the microphone boom arm, earpiece, and cable. Both the microphone and earphone are mounted on flexible arms, allowing for easy and full adjustment. Additionally, it includes a Push-To-Talk (PTT) button, essential for any tactical headset or communication system.

ADVANTAGES

- Light weight, comfortable fit
- All-in-one design, excellent noise canceling

CONSTRUCTION

- The PTE-M10 headset consists of a small housing, in which the microphone boom arm, earpiece, and down-lead are assembled/connected. The microphone and earphone are mounted on flexible arms for full, easy adjustment. The boom arm-mounted microphone itself is low mass and noise-cancelling, and can be in either dynamic or electret versions. It comes with the requisite Push-To-Talk (PTT) button, required for any tactical headset or tactical communication
- Adjustable elastic straps with velcro for comfort wearing.
- Low profile design allows wearing under helmet or headwears.
